

Appendix 3 Recommended Scientific Style Manuals

The following two sources are recommended for authoritative information on all aspects of style, regardless of your subject area.

One of the most used manuals in scientific style and format:

For All Areas of Science and Related Fields

Scientific Style and Format: The CSE Manual for Authors, Editors and Publishers. 7th edition. Council of Science Editors, 2006. Hard copy only.

The CSE Manual is the most recognized, authoritative reference for authors, editors, publishers, students and translators in all areas of science and related fields. The manual is usually known by its subtitle and is highly recommended.

For General Style

The Chicago Manual of Style: For Authors, Editors and Copywriters. Chicago: University of Chicago Press. Online: <http://www.chicagomanualofstyle.org/home.html>
